Compact Committee continues work

Shelly Duguid News Editor

As efforts continue to solve the dilemma of off-campus parties and property destruction, the four groups which have pledged to promote change in the Camden Avenue area are hard at work, tackling new issues.

The Camden Compact, a collaborative attempt between the University, the city of Salisbury, the Salisbury Area Property Owners Association and the Camden Avenue Association, was introduced in September in an attempt to build a better community.

The four main purposes of the Compact include strengthening neighbor relations, developing respect for each other and the law, creating a sense of civic pride and formulating a collaborative problem-solving system between the groups.

Last Wednesday, the Compact Committee met again, and for the first time, several Greek Organizations were present to express their concerns. Representatives from SSU's Greek, Inter-fraternity and Panhellenic Councils attended the meeting to voice their ideas and new perspectives. The Compact Committee hopes to begin a series of community service projects with the Greek organizations.

Presently, Compact's main mission is to get more neighborhood associations other than just the Camden area involved in community affairs.

Vice President of External Affairs within the Government Student Association (SGA), Lee Roth, said of the Camden area's steady progress, "It shows that it's been working, but it's

target now. Students continue to express the need for alternatives to partying, as they state there are simply not enough late night activities in Salisbury.

Mayor Barrie Parsons Tilghman plans to address the students' needs at the next Salisbury small business meeting, suggesting that local business owners take advantage of the opportunity to help students and make

Yesterday, the SGA mailed out a letter and questionnaire to all offcampus students, 23 years and under, in of a long term process to restructure the

the other areas that we need to The Camden Compact Committee hopes to branch out to local neighborhoods like Hazel Avenue.

Salisbury and Fruitland. The survey is part of SGA's attempt to assess problems within the local area.

The questionnaire, which can be filled out anonymously, addresses such issues as landlord dependability and service, roommate situations and partying. The mailing includes a business reply, and students are encouraged to take advantage of the free opportunity to make suggestions to improve off-campus living.

Everyone agrees that the Camden Compact is just the beginning

community of Salisbury.

Police say that the main problem continues to be the noise levels associated with off-campus parties and that students need to remember that there are neighbors that have children and jobs. The Salisbury noise ordinance states that no noise should be heard 50 ft. from a residence between the hours of 11 p.m. and 7 a.m.

As for stricter law enforcement of loud parties, Tilghman said, "If the students call and inform their neighbors ahead of time, they tend to be more

East Coast Soccer ranks

Jen Payne Flyer Staff Writer

SSU's soccer Club has the chance of becoming nationally known, after being created less than a year ago. Following the defeat of the University of Maryland at College Park, SSU's women's club soccer team ranked as one of the top two teams on the east coast and qualified for a national tournament in Georgia.

The East coast league is divided into regions that designate which Colleges and Universities will play each other. The top two teams from each region compete in the national tournament.

Last Spring, an official soccer club was founded at SSU. Since its beginnings, the club has flourished into a competitive organization that plays some of the top colleges on the East Coast. The club currently has 80 members.

A club team is one in which the

competition level is in between that of varsity and intramural teams. SSU's soccer club consists of three teams, two men's and one women's. Originally, the club was supposed to consist of all male teams, but things soon changed.

The club's coach, Dr. Wayne Ackerson said, "The way we thought of the club before it was created and the way the club is now are two very different things.'

While the soccer club was not initially co-ed, they have benefited greatly from the decision to add a women's team.

Both the women and the men's teams play some competitive schools throughout their season. Schools such as College Park, Rutgers and Princeton offer some very aggressive opponents. This leaves club organizers a way to satisfy all of those involved.

"Our goal is to try and find the fine line between the amount of participation that some people want and the competition that some people want," said Ackerson.

While it can take a lot of dedication to play a club sport, SSU's players' responsibilities do not end when they step off the field. This past Saturday, October 31, the soccer club held a Hispanic Outreach Day, in conjunction with the Spanish Club.

The activities, which took place on the intramural fields, consisted of various events offered for Salisbury's Hispanic community. The day began with an exhibition game and was followed by Kid Clinics offered to all who attended. With free refreshments and donations from Pepsi the two clubs worked hard to accommodate those who did not have the funds to pay for the

The Soccer Club is working hard this semester to accomplish some remarkable goals. For more information concerning the club, contact Dr. Ackerson at (54)3-6527.

On Friday, Oct. 30, the city of Rehobeth passed an ordinance allowing parking attendants to place new tickets every 90 inutes on already ticketed cars whose drivers have not corrected the violation. The new ordinance was created after parking attendants found that people were placing old tickets on their cars to fool them into thinking the car had already been ticketed.

Last week, people of all walks of life came together to support their communities during the United Way's "Make a Difference Days of Caring." Sponsored by the Shore CAN Volunteer Center at Salisbury State University and the United Way of the Lower Shore, the week-long event saw 238 volunteers participating in 23 projects throughout the tri-county area.

National/World News

On Saturday, Oct. 31, the Eiffel Tower was closed after workers went on strike to demand more staff. The strike began late Friday and was expected to last until at least Monday. Between 15,000 and 20,000 tourists visit the Eiffel tower daily, making it one of the most popular destinations in the world. The company is expected to lose around \$417,000 over the weekend due to the strike.

On Saturday, Oct. 31, scientists announced that Thomas Jefferson, author of the Declaration of Independence and the third president of the fledgling United States, almost

with his slave at his Monticello plantation. The findings come after scientists analyzed genetic material collected from his living descendants. The new evidence sheds the first reliable scientific light on a controversy over paternity that has simmered for almost two centuries.

On Saturday, Oct. 31, taking a break from a regimen of medical tests aboard

Glenn fielded questions from earthbound students. The 30-minute news conference linked Glenn and Discovery Cmdr. Curtis Brown Jr. with students in Arlington, VA and at two venues in Glenn's native Ohio, including John Glenn High School in his hometown of New Concord.

On Saturday, Oct. 31, a New York real estate magnate turned over a \$1 million check to Paula Jones that could become part of an overall settlement of her sexual harassment suit-against President Clinton, although the president's lawyer said the two sides were no closer to reaching a deal. The ayment was conditioned on her reaching a settlement with the president. lones' spokeswoman, Susan Carpenter McMillan, said she hopes it would prompt Clinton to "negotiate in good

On Saturday, Oct. 31, activists who want Congress to oust President Clinton from office rallied on the National Mall in what organizers called a national March for Justice. The event, sponsored by Free Republic, an online conservative forum based in Fresno, Calif., included speakers such as New York literary agent Lucianne Goldberg, who advised

Linda Tripp, a Pentagon staffer, to record her telephone conversation with her friend Monica Lewinsky. Free Republic's founder, Jim Robinson, said the rally is "not about Republican or Democrat. This is about right and

On Saturday, Oct. 31, Iraq announced it would bar U.N. weapons inspectors from the country, a move that could provoke a fresh showdown with the United Nations. The decision by Iraqi President Saddam Hussein and his top advisors exempted only a handful of experts from the International Atomic Energy Agency, who monitor suspected nuclear sites. The ban was seen as a response to a U.N. Security Council decision Friday to review Iraq's progress on eliminating prohibited weapons.

On Saturday, Oct. 31, the National Emergency Commission announced that a total of 306 people died in Honduras from tropical depression Mitch. Mitch, once one of the strongest hurricanes to hit the Caribbean, was downgraded to tropical depression status Saturday but continued to dump heavy rain on the region. One-hundred and thirty people were reported killed in Tegucigalpa, the Honduran capital.

During a June meeting of campus Maryland representatives, conversation was initiated over a "Enterprise License Agreement" with Maryland educational institutions, including grades K-12, and the Microsoft corporation.

The agreement would give students, faculty and staff the rights to all Microsoft software. This would allow them to receive free software upgrades, allowing users to share software with other desktops and might also spark a "lap-top for every student" program.

"There are hundreds and hundreds of Microsoft programs out there, and you'd get them all," said Lee Roth, vice president of external affairs within the Student Government Association (SGA).

Currently, the agreement is contracted to last for for three years, with an optional fourth year. At the end of the fourth year, renegotiations with Microsoft would incur, pending further

The cost of this agreement is based on the number of students plus the number of PCs and Macintoshes on campus. In the case of SSU, the cost would be approximately \$14 per student, and the bill would be integrated within student activity fees and adjusted accordingly at the end of each year.

SGA is looking into the possibility of requesting state funds from the Supplemental Budget Item as a onetime funding project to support the costs. If granted, the state would pay for the program in its entirety.

With the adoption of this program, universities would not be restricted to abandon other software programs, such as WordPerfect and Lotus. Desktops will still be able to carry other brand-name software.

Although the opportunity to sign the contract has not yet been presented, nearly all the community colleges and 4-year institutions in the state of Maryland, with the exception of two primarily Macintosh campuses. have submitted the numbers of students and computers indicating an interest in the program. The K-12 system has also provided similar information and

Choral Festival marks county collaboration

Editor in Chief

The Flyer November 3, 1998

The SSU Department of Music will be hosting a county-wide choral festival this Wednesday. Choirs from Bennett, Mardela, Parkside and Wicomico High Schools will be joining the SSU Chamber Choir and University Chorale for a collaborative performance.

The idea for the festival came from Dr. Michael Weber, director of will be the last group to perform, singing this sort of thing at least 15 years ago, vocal studies at SSU. New class offered to save stressed out students

Amber Pilon Flyer Staff Writer

All students have suffered from performance stress. This semester. however, SSU will offer a course to help combat performance anxiety.

Wellness in Performance premieres the Spring of 1999 semester and will be held MWF from 11:00 to 11:50 in the Fulton Hall music studio, room 115. It is open to all majors, but counts as either MUSC 450 (Studies in Music) or PHEC 490 (Selected Topics in Physical Education) for music and physical education majors, respectively. Approximately 25 students will be allowed into this class.

According to Linda Cockey, associate professor of music, SSU is only one of three universities nationwide to offer a wellness course that is available to and speaks to all performers, from football players to ballerinas and from actors to pianists. Catholic University, Cockey's alma mater, and Higher University in Athens, GA are the two institutions that beat SSU to the plate with this ground-breaking venture.

Though Wellness in Performance would benefit students and, due to the scarcity of such courses, help to further distinguish SSU as an innovative institution, funding for this class has been scarce and slow in coming, Dr. Robert Dotterer, Dean of the

In education instructor Pat Lamboni and the past, McBrian has demonstrated psychologist Dr. Robert McBrian, with similar methods as a guest speaker for

Lamboni explained, "Dr. Cockey is dealing with the physical aspects of

performing. He'll point out the muscles to exercise and/or pamper for each activity. Basically, "I'm taking care of the anatomy and the biomechanics of movement," he explained.

Though athletes and dancers are familiar with these elements, actors and musicians are often uninformed about the physical facts of performing. Senior Derek Bowden, a pianist, explained "you never learn the physical side of playing music. But when you do make that connection between your body and your playing, it only enhances your performance."

A pianist herself, Cockey knows well the possible injuries of playing. In the early 1990's, Cockey recalls "over-practicing two [musical] pieces" that weren't kind to the hand or the arm. After contacting a doctor or two, she landed in Lamboni's office. He taught her exercises to prevent such pain and gave her an upper arm wrap that, Since then, Cockey has "sent a student or two" to receive similar treatment from

In Wellness in Performance, Cockey will address both physical and mental techniques. Everything will be covered from "confidence building," to what foods to and not to eat before

Alpha Sigma Tau to celebrate twentieth birthday

Emily Nock Flyer Staff Writer

Twenty years ago, Nov. 18, 1978. SSU celebrated a birth on campus. On this day, the Sorority Alpha Sigma Tau (AΣT) met for the first time on the SSU campus

Today, the girls of $A\Sigma T$ are preparing to celebrate their 20th national birthday. In addition, they are also preparing to celebrate their 100th national birthday which will be on Nov.

Events for the national birthday began earlier this summer with a national convention in which the SSU branch was the recipient of several awards. These included a third place award for their philanthropy project, recognition for chapter excellence and

the District Improvement Award of carried on," Ehman which they are a second-year recipient. stated.

The sorority will begin celebrating their 20 years at SSU on of the organization Nov. 7 with a banquet. In addition, they include will hold two rushes on the 17th and community service, 19th on November. The purpose of the philanthropy projects, rushes is to allow all of the campus to fund raisers and participate in their celebration.

According to sorority member Tricia Ehman, this event is important was brought to SSU by because "it goes to show how important Donna Bytella, who was of an organization we are."

to read poetry

Poet Greg Glazner reads fro s work on Monday, Nov. 9, at 8 p.m in the Montgomery Room of the Commons at SSU. Sponsored by SSU's Department of English, his presentation free and open to the public.

Singularity, Glazner's latest collection of narrative meditative the richness of a conscious life. He deftly weaves into Singularity the many textures of contemporary life: from car ides, radios and obscenities spray painted under bridge to morning coffee and the yeast smell of bread.

Present in the commonplace details of the outer world are thei arallels in the inner world: suffering and comfort. Glazner asks: Why should singularity require/ this shape; light that couldn't be/ without shadow at the marrow of it." He maintains that whether or not we want it to, singularity requires both light and shadow conscious life is inclusive by nature and does not look away from the world.

For more information of Glazner's presentation, contact the SSU Public Relations Office at 410-543-

Men's Soccer wins in overtime again

Sports Editor

SSU's mens soccer team hosted Washington and Lee at Sea Gull Field on Saturday in the first ever meeting between the two teams. It was a pivotal game for both teams, as each are in the running for an NCAA tournament bid.

The Sea Gulls entered the season finale ranked fifth in the South Region and unbeaten in their last seven games. Washington and Lee entered the game sixth in the South Region and unbeaten in their last ten games.

Washington and Lee struck first, as midfielder Andy Crawford beat goalie Mike Svehla, giving the Generals a 1-0 lead. Moments later, Sea Gull midfielder Paul Kelly broke free, but his

Green Terror Strikes Seagulls

Shawn Kieselmann Flyer Sports Writer

The SSU football team played their last home game of the season on Saturday against The Green Terror of Western Maryland at Seagull Stadium.

The game was an emotional one, in that particular contest with a lot of heart and it was the last home game for seniors intensity. Tony Hill, Brian Doyle, Ron Owens, to making the Seagulls a worthy opponent for any team this season. That

"It was obviously emotional," Scott MacRobbie, Mike Francingues and said Hill, a defensive back. "I definitely Rick Trinidad, who have all contributed wanted to win, and we came into the game with a winning attitude."

The Seagulls will to win being the case, the Gulls went into this translated into great defense in the first half. The Gulls held the Terror's running game to a net gain of -1 yards in the first half, while stifling their passing attack by allowing only two completions for a total of 20 yards. Western Maryland was only able to score off of their opponents mistakes.

After the Seagulls fumbled a punt return at their own 15, Western Maryland kicker Brent Sandrock kicked a field goal from 39 yards out to put the minute. Terror on the board first with 2:09 left in (page 14) the first quarter. In the second quarter, they were able to score when freshman corner Ed Goldsberry blocked Mike Fotiadis's punt and returned it 19 yards for a touchdown with 14:50 left in the half, to give WMC a 9-0 lead. By the end of the half. Salisbury would close
